Summary

Data Analyst with hands-on experience supporting **operational and business decision-making** through **data analysis and dashboard automation** in a **multinational environment**. Proficient in **SQL, Python, and ETL workflows** to transform raw data **into actionable insights.** Experienced in building **automated BI dashboards**, improving **data accessibility,** and enabling **data-driven decisions** across **operations and performance monitoring.**

Skills

- **Tools and Programming:** Python, SQL, Power BI, Tableau, Excel, Google Analytics, Looker Studio
- **Data and Analytics:** Data Cleaning, EDA, Data Visualization, KPI Reporting, Predictive Modeling, A/B Testing
- **Database and Platforms:** SQL Server, BigQuery, PostgreSQL, Jupyter Notebook
- **Data Engineering/ETL:** ETL/ELT pipelines, data ingestion, data integration, API-to-database workflows.
- **Soft Skills:** Analytical Thinking, Problem Solving, Communication
- **Languages**: English (Professional Working Proficiency)

Professional Experience

PT CMLabs **November 2025 - January 2026**

Data Analytics Intern

- Analyzed website traffic, SEO performance, and user behavior using **Google Analytics and Google Search Console**, improving **CTR by 18%**.
- Built automated dashboards in Looker Studio, reducing manual reporting time by **40%**.
- Delivered insights for SEO and content strategy, contributing to **15% organic traffic growth**.

Onsite PT Pertamina Hulu Energi (Jakarta, Indonesia) **July 2025 - August 2025**

Full Stack .NET Developer and Analyst System

- **Developed a CRM web application** to centralize vendor data, improving **data accessibility** and **reporting reliability**.
- Built **ASP.NET Core APIs** and **SQL Server** schemas to produce **analysis-ready datasets**.
- **Optimized data flow** and **database performance**, enabling faster **data-driven decision-making** across teams.
- Designed **ETL pipelines** using **SQL Server and APIs** to support **data ingestion and transformation** for **reporting and analysis.**
- Implemented system data tracking to monitor usage metrics and support **operational analysis and performance monitoring**.

Onsite PT Bridgestone Tire Indonesia (Bekasi, Indonesia) **February 2022 - June 2025**
Full Stack .NET Developer and Analyst System

- Developed **10+ internal applications** to streamline production and HR workflows.
- Designed scalable SQL Server databases for 1,000+ employees and multiple production lines.
- Created analytical dashboards using Power BI, supporting data-driven decisions at the department level.
- Created **automated ETL workflows** to integrate production and HR datasets into a centralized reporting system.
- Reduced manual reporting time by **40%** through automation.

Project and Research

Project Data Analyst Dibimbing.id - Operational and Customer Satisfaction Analysis of Zomato Delivery Services

- Built an end-to-end dashboard analyzing delivery operations and customer behavior
- Performed EDA on time taken, distance, traffic, weather, rating, order time period, and city segmentation.
- Identified bottlenecks by city, peak-hour volume, and traffic impact on delivery speed.
- Gdrive

Dashboard Analyst – Indonesia Investment Realization 2010–2025 (SARIMA)

- Built an interactive dashboard (Python + Streamlit) with SARIMA forecasting (MAE 4.32%).
- Visualized trends, seasonality, and 8-quarter projections with confidence intervals.
- Key insights: FDI dominance; mining and manufacturing as leading sectors; growth projected to 2027. Github

---

Education

YARSI University (2016-2020)
S1 Information Technology | GPA: 3.38

- Relevant Courses: Data Analysis, Algorithms, Software Engineering
- Final Project: *Emergency Service "Siaga App" (Android and Web)*

Dibimbing.id – Online Bootcamp
Data Analytics and Science **April 2025 - September 2025**
Analytical Skills:

- Data Cleaning, Data Manipulation, Hypothesis Testing, EDA, Data Visualization

Tools and Dashboard:

- Power BI, Tableau, Streamlit, SQL Server

MySkill – Online Bootcamp
Microsoft Excel **February 2026 - March 2026**

- Microsoft Excel (Advanced: Data Cleaning, VLOOKUP, Pivot Table, Dashboarding, VBA & Macro)
- Final Project: HR Analytics Dashboard

Certificate

- **SQL (Advanced) Certificate – HackerRank**
  February 2026
- **Certificate of Internship Data Analytics Intern - CMLABS**
  January 2026
- **Belajar Penerapan Data Science dengan Microsoft Fabric – Dicoding**
  December 2025 – December 2028
- **Memulai Pemrograman dengan Python – Dicoding**
  October 2025 – October 2028
- **Belajar Dasar Structured Query Language (SQL) – Dicoding**
  October 2025 – October 2028
- **Belajar Dasar Data Science – Dicoding**
  October 2025 – October 2028
- **Belajar Dasar AI (Artificial Intelligence) – Dicoding**
  October 2025 – October 2028
- **Data Analyst and Data Science Bootcamp – Dibimbing.id**
  September 2025
